

MICHELIN XZY-2

Y

ON / OFF ROAD

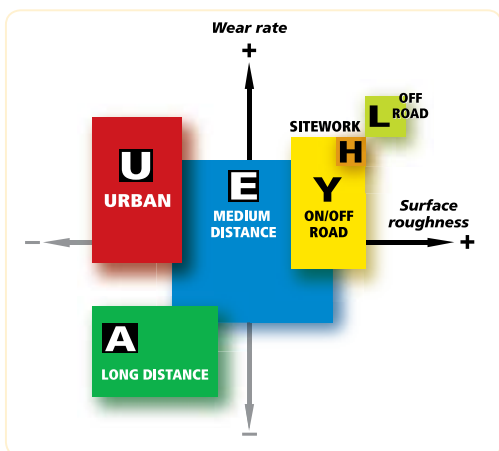

ALL AXLE FITMENT

FOR ON / OFF ROAD OPERATIONS

- **INCREASED MILEAGE PERFORMANCE***
- **GREATER RESISTANCE TO DAMAGE**
- **IMPROVED RETREADABILITY**

On road performance is complemented by essential off road capabilities.

*Comparison to XZY

MICHELIN XZY-2

INCREASED MILEAGE PERFORMANCE

- A new, wider tread (extra 15mm to 30mm, depending on size) and deeper pattern, which increases the volume of usable rubber.
- A new rubber compound for improved resistance to abrasive road surfaces and off road surface aggression.

IMPROVED DAMAGE RESISTANCE AND REMOULDABILITY

- Casings are better protected against surface aggression due to:
 - thicker rubber in the crown area and the sidewalls
 - anti-stone trapping tread
- Robust steel-braced casings that offer improved acceptance for retreading.

CONSISTENT SECURITY IN ALL ROAD CONDITIONS

Achieved by the specific design of the new tread pattern: number, shape and positioning of the tread blocks, plus wide and deep central grooves.

- Grip on and off road
- Better steering in mud and soil
- Comfort and precise handling

NEW TYRE = BETTER PERFORMANCE
